

Directions To Black Bear Inn From The Reno Airport

- A new highway from Reno is under construction. For the next couple of years, as you drive this route you will be getting on and off the elevated highway/bypass.
- It's a 70 minute drive from the Reno airport to Black Bear Inn.
- Just beyond the airport exit, take Highway 395 south.
- A few miles further, take exit 57B in order to stay on 395.
- Just as Highway 395 enters Carson City, take the 395 Business exit.
- While on 395 Business, 50 merges with 395. When 50 and 395 split, turn to the right and stay on 50.
- After 20 miles or so you will see the only high rise buildings on the road: the casinos. They are located right on the California/ Nevada border at the Stateline street traffic light. Four lights further south is Ski Run Boulevard. Turn left onto Ski Run. Black Bear is one-half mile up on the right: **1202 Ski Run Blvd.**

Check-in is 3pm - 6pm

Check-in after 6pm is possible only for cabins, and with advance notice.
